These are just wonderful to make. Your options are limitless. They are so quick to make... make some for your friends... Great for party favours!  
Perfume Miniatures are also very cute for doll play!

1. Shop for your beads. I use plastic beads as they are light and easier to glue. You need 3 basic sections to make up a perfume bottle:  
MAIN BEAD forms the shape of the bottle  
BASE RING: only needed if your main bead cannot stand on its own  
BEAD FOR LID: this tops off the bottle

**Note on proportion:** Take care that you do not make the bottles too big or too small... measure them in your dolls hands... a perfume bottle is about the size of your hand... so should your doll's be. Mine are a bit bigger.

2. You will also need:  
Emery board (hard nailfile) or sandpaper  
Glue or glue gun  
Ribbon (optional) - burn the ends of with a lighter to stop it from fraying... **please ask an adult for help!**

3. Use the nail file to file off any bumps on the bead where you will glue them together.

4. Glue your beads together.

5. Once the glue is dry you can add a ribbon around the bottle neck.
